What are the insured's plans for growth? Does the insured anticipate obtaining/adding units in the current year? If yes, explain in comment section below.

Yes No

Comments:

Let us Help you to write more Non-fleet Business

To ensure our underwriters can provide you with the quickest and most competitive quote, please follow our guidelines below:

1 - 3 Power Units

- JM Wilson has created a 2 page quick quote form which can provide our underwriters with the necessary information to approach all available markets we have to offer.
 - This can be found on our website (www.jmwilson.com) located in any transportation application folder.
- We are more than happy to quote from another application or your agency's quick quote form as long as they provide the same information.

4-10 Power Units

- Completed company application
- Drivers list including dates of hire, license number and years of commercial driving experience
 - Dates of hire and years of experience allow us to reach the maximum driver credits available for each risk
- 3 year current valued loss runs
 - Loss runs allow us to contact the company for more competitive pricing
- IFTA Mileage Reports
 - IFTAs give us the ability to mix-rate an account to more accurately reflect what the insured is truly doing and to be more competitive in pricing
 - Mileage also gives us the ability to pursue other markets who have certain radius restrictions
- List any dedicated runs, long time shippers
 - This information allows us to be competitive with markets who give additional credits for stable, dedicated carriers

Submit your risks online at: jmwilson.com

Thank you for your cooperation and continued business!
